

COPSIL

SILICONES DESIGNED FOR YOUR ORTHOPEDIC APPLICATIONS

We design, synthesize and formulate a range of skin-contact silicones combining comfort and performance.

OUR PRODUCTS

Comfort gels

COPSIL GEL are very soft and dry silicone gels for making anti-bedsore cushions or pads. Also available in sheets.

Molded liners

COPSIL range is made up of silicones adapted to the manufacture of custom liners.

Soft socket

COPSIL SOCKET is a silicone designed for the production of soft socket.

Socket duplication

COPSIL 65 is a silicone elastomer for copying socket.

3D Printing

COPSIL 3D® range is designed for the manufacture of flexible parts with complex designs or for prototyping.

Finish coating

SILISKIN is a Soft-Touch silicone coating that improves slip and abrasion resistance of parts subject to friction (liners, HTV orthotics, etc.).

OUR SERVICES

- ✓ Development of customized materials
- ✓ Mechanical analysis and characterization
- ✓ Training in polymer processing
- ✓ Legal service and documentation
- ✓ 3D Silicone prototyping
